

# Corporate Overview in 4 pages

## About JetBrains

JetBrains is a global software company specializing in the creation of intelligent, productivity-enhancing tools for software developers and teams. It's headquartered in Prague, Czech Republic, with 12 offices globally. JetBrains employs more than 1,800 people and has grown organically, with no external funding. Its product catalog covers every stage of the software development cycle as well as major technologies, programming languages, and educational processes.

Its Research & Development labs are located in Munich, Berlin, Amsterdam, Boston, Paphos, Belgrade and Yerevan. Our sales departments operate from Czech Republic (Prague), North America (US East Coast: Marlton, NJ and US West Coast: Foster City, CA), and China (Shanghai).

## JetBrains Facts

- Founded in February 2000
- Funding: private
- CEO: Maxim Shafirov
- 15M+ users in total
- 90 Fortune Global Top 100 companies are JetBrains customers
- 305K companies use our paid tools
- 1.7M+ free licenses for students and faculty members (over 2022)
- Kotlin, the JetBrains-developed programming language targeting the JVM, Android and the browser, was officially supported by Google as a first-class language for Android development in May 2017.

# Timeline

- 2001** IntelliJ IDEA launched; Prague office opened
- 2003** Boston office opened
- 2004** ReSharper launched
- 2005** dotTrace launched
- 2006** TeamCity launched
- 2008** RubyMine launched
- 2009** MPS and YouTrack launched
- 2010** WebStorm, PhpStorm, PyCharm, and dotCover launched
- 2011** dotPeek launched; Munich office opened
- 2012** Kotlin launched
- 2014** dotMemory launched
- 2015** ReSharper C++, CLion, DataGrip and Hub launched;  
JetBrains Americas offices in Foster City and Marlton opened
- 2016** Rider launched
- 2017** GoLand launched
- 2018** Datalore and Marketplace launched
- 2019** Space, JetBrains Academy launched; Amsterdam office opened
- 2020** Code With Me and Ktor launched
- 2021** DataSpell, Qodana, Compose Multiplatform and Fleet launched;  
Remote Development introduced
- 2022** Aqua, RiderFlow, Writerside, Toolbox Enterprise and  
License Vault launched;  
New offices in Berlin, Belgrad, Paphos and Yerevan opened

# Team

Talented, dedicated, born to code – we enjoy writing clean, quality code and delivering great software as much as your developers do.

We trust that giving people the freedom to do what they want brings out the best in them. And every problem that arises should be viewed as a new challenge, an opportunity to improve, a chance to innovate. Each person has their own drive and ambitions, but we asked each and every one, what makes JetBrains special for them. Most frequently used terms were Authenticity, Independence, Learning, and Fun.

# Products

## IDEs

**IntelliJ IDEA**  
Java IDE

**PyCharm**  
Python IDE

**PhpStorm**  
PHP IDE

**RubyMine**  
Ruby and Rails IDE

**WebStorm**  
JavaScript IDE

**CLion**  
C/C++ IDE

**DataGrip**  
SQL IDE

**GoLand**  
Go IDE

**DataSpell**  
For Data Science

**Fleet**  
Next-generation IDE

**Aqua**  
Test automation IDE

## .NET/VS Tools

**Rider**  
Standalone cross-platform .NET IDE

**ReSharper**  
Visual Studio extension for .NET developers

**ReSharper C++**  
Visual Studio extension for C++ developers

**dotTrace**  
.NET performance profiler

**dotCover**  
.NET unit test runner and code coverage tool

**dotMemory**  
.NET memory profiler

**dotPeek**  
Free .NET decompiler

## Team Tools

**Space**  
A complete software development platform

**TeamCity**  
Continuous integration and deployment server

**YouTrack**  
Powerful project management for all of your teams

**Hub**  
The YouTrack and TeamCity connector

**Datalore**  
Collaborative data science and data exploration for teams

**Godana**  
The code quality platform for your favorite CI

## Plugins & Solutions

**Code With Me**  
Real-time collaborative development

**Remote Development**  
The ultimate coding experience for a remote world

**RiderFlow**  
Scenery tool to build and manage your 3D space

**Writerside**  
Create and publish online documentation

**Toolbox App**  
A control panel for your tools and projects

**License Vault**  
Efficient management of JetBrains licenses

**Toolbox Enterprise**  
Manage IntelliJ-based IDEs at scale

## Languages & Frameworks

**Kotlin**  
Statically typed programming language for the JVM, Android and the browser

**Ktor**  
An asynchronous framework for creating microservices, web applications, and more

**Compose Multiplatform**  
Declarative multiplatform UI framework for Kotlin

**MPS**  
DSL development environment

## Educational Products

**JetBrains Academy**  
A place for learning and teaching computer science your way

# Industry Recognition

Many of the world's most dynamic companies and individuals find that JetBrains tools make them more creative and effective. Over 15.9 million developers already use our products, and 90 Fortune Global Top 100 companies are JetBrains customers.

Our products have been honored with over 115 international industry awards. 305K companies use our paid tools to develop software. Take a look at what our customers are saying about us:

*"Most of our engineers do not get any errors at all during compiling because IntelliJ IDEA catches them all during editing. The time we save is remarkable."*

- Ken Watts, VP Platform Engineering, Documentum

*"ReSharper is a requirement from my side; I don't want to open up Visual Studio without it enabled."*

- Filip Ekberg, Software Engineer, Star Republic

*"We have tested YouTrack extensively and we are convinced that it is a very stable and consistent product."*

- Marvin Burman, Project Manager, UI-Check
