Issue tracking and agile project management tool

YT

YouTrack

THE DRIVE TO DEVELOP

Why YouTrack

Track everything in one place

YouTrack is designed for development teams and serves as a one-stop shop for tracking daily tasks and bugs, planning sprints and releases, managing agile projects.

Be Agile your way

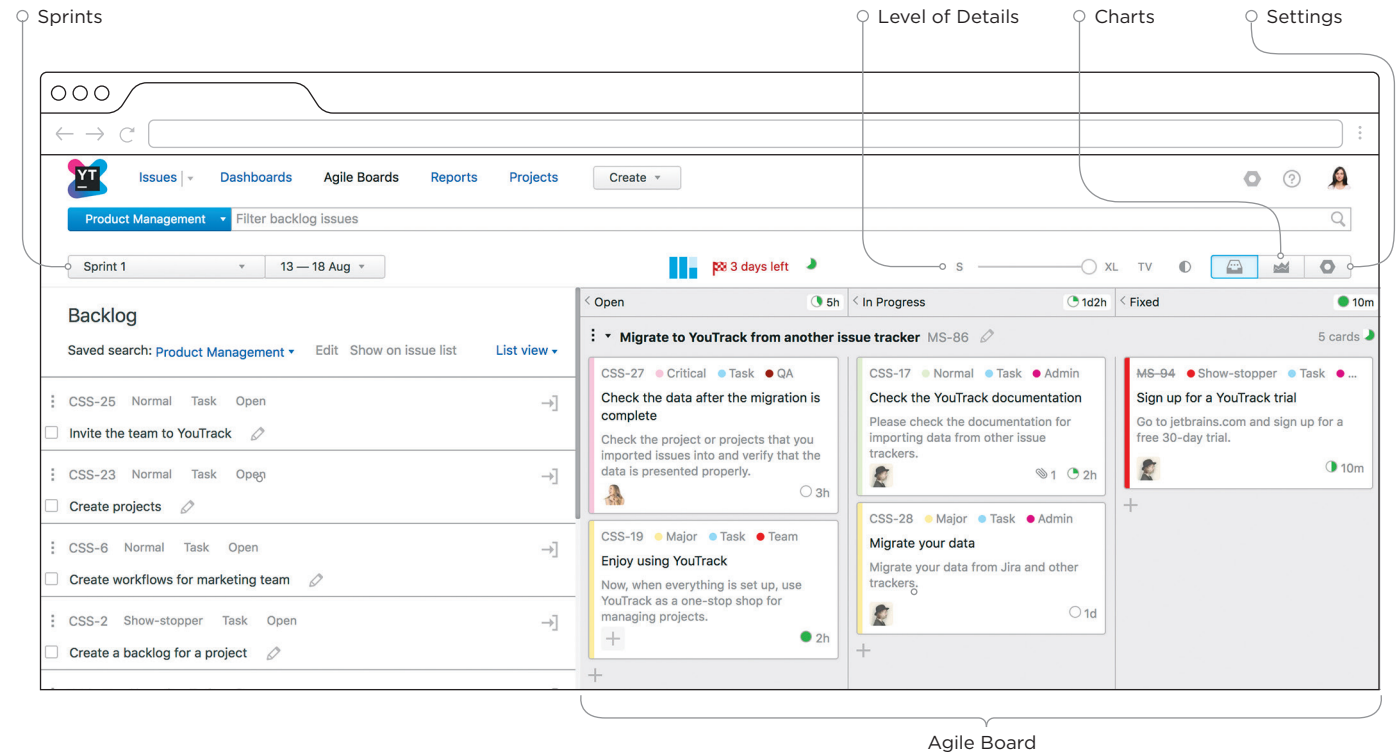

- Practice Scrum, Kanban or a mixed process
- Manage product backlog and comfortably plan your sprints
- Combine multiple projects on a single board
- Create dozen of personal boards
- Create issues draft and manage them any time
- See changes that are applied on the board or in the backlog in real time

Bring IDE-style intelligence to your issue tracking

- Filter issues in no time with smart search queries
- Update tons of issues at once using geeky commands
- Keep your hands on the keyboard with shortcuts for every action

Migrate painlessly

Switching to a new issue tracker may seem frightening. To make this process as painless as possible, YouTrack provides one-click import from Jira and ready-to-use scripts to migrate from any common tracking system.

What our customers say about YouTrack

Everyone at MindTouch loves YouTrack! Being this productive was simply not possible before. It's been the most successful technology roll-out in the company!

Steve Bjorg
MindTouch

YouTrack puts users first, makes common workflows easy, and is a pleasure to use. If you want to simply get things done, go with YouTrack.

Michael Hedgpeth
